

Grape Extract Specialist

- Exclusive premium raw material
- Extensive range
- Sulfite-free grade available

Grape Extracts

The wine consumption of French people linked to their health conditions is well known as the French Paradox. Nexira's Grape Extracts are mainly sourced from famous French vineyards and are carefully harvested and selected to offer the highest content in phenolic compounds. Active ingredients are extracted from seed, leaf, skin and shoot as each part of the vineyard is unique.

Our Grape extracts are the result of the association of an exceptional "terroir" with thousands of years of agricultural expertise & a specific extraction process. This allows Nexira to provide top quality extracts with high guaranteed content in Total Polyphenols, OPCs, Proanthocyanidins, Anthocyanins and t-Resveratrol.

DISTINCTIVE ADVANTAGES FOR APPLICATIONS

ANTI-AGING

WEIGHT
MANAGEMENT

BLOOD
FLOW

CARDIOVASCULAR
HEALTH

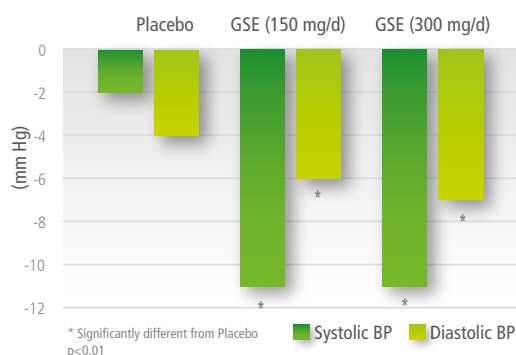

VISION

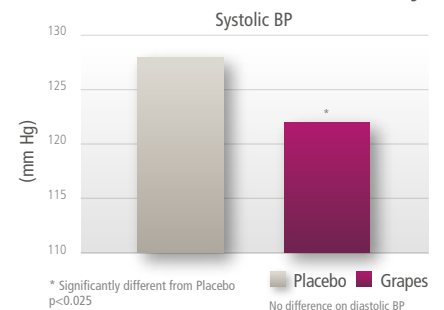

ANTIOXIDANT

Grape extracts have been used for centuries for their multiple health benefits. Clinical studies have demonstrated **the effect of grape seed extracts and grapes on cardiovascular health** by lowering blood pressure.

Effect of Grape Seed Extracts (GSE) on Blood Pressure (BP) after 4 weeks¹

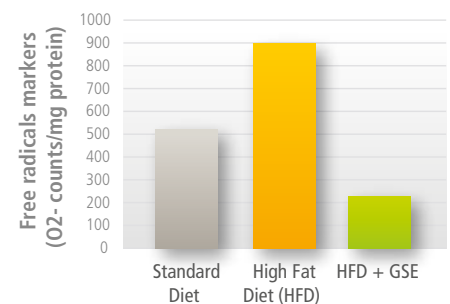

Effect of Grapes on Blood Pressure (BP) after 30 days²

Grape seed extracts are also widely known for **their high antioxidant properties**, improving antioxidant status and decreasing free radical production.

The physical characteristics of our grape extracts (water soluble, low hygroscopicity) make our line easy-to-use in a wide range of supplements.

Effect of Grape Seed Extracts (GSE) on oxidative stress markers³

RELIABLE QUALITY

Our experience in sustainable **sourcing** guarantees the **traceability** from the vineyard to our ingredient. The gentle manufacturing process is controlled in our French facility. Thanks to our expertise in **extraction and purification**, the company offers **the highest market standards**.

As a specialist and a manufacturer, we carry out our **analysis** in our own lab on-site with state-of-the-art equipment and reliable methods, insuring the quality and the origin of ingredients.

LEGISLATION

EFSA Pending Claims*:

Vitis vinifera

ID	DESCRIPTION	HEALTH RELATIONSHIP	EXAMPLE OF WORDING	CONDITIONS OF USE SUBMITTED
4721	<i>Vitis vinifera</i> , semen, extract / Wine grape, seed extract	Antioxidant	Support of cell membrane against the destructive actions of free radicals	280 mg extract /day, mini 30 days
2060	Grape seed extract	Antioxidant	Grape seed proanthocyanidins have been found to have a number of antioxidant activities	Mini 300 mg grape seed extract in the daily portion of the product (containing more than 90 % polyphenols)
2139	Seed of <i>Vitis vinifera</i> (Grapeseed)	Circulatory	Supports venous circulation Maintains healthy blood vessels & capillary integrity	As a food supplement equivalent to 9 g seed daily
2156	<i>Vitis vinifera</i> (Common Name: Grape)	Antioxidant	Protect against free radicals Anti-aging	Marc 6x250 mg / day
2157	<i>Vitis vinifera</i> (Common Name : Grape)	Vein health	Red vine leaf contributes to a good blood flow in the legs Helps to decrease the sensation of heavy legs	The equivalent of 5 g of leaf per day
2735	Red Vine (<i>Vitis vinifera</i> L.)	Weight control	Helps to reduce cellulitis aspect. Supports slimming. Helps to control / stabilize body weight. Helps silhouette to become more refined.	Grape marc At least 2 g of powder per day

PROPRIETARY FORMULATIONS WITH GRAPE EXTRACTS:

ViNitrox™, our natural solution for Sports Nutrition

EnoStim™, our natural male enhancer
